

## BELL-60EPK

Electric Fuel Transfer Pump Kit with internal recirculation bypass

A low cost wall-mounted refuelling system suitable for standard 230V mains power.

Kit contents:

- BELL-60 self-priming vane pump with ON/OFF switch
- Z400 flow meter
- 4m delivery hose and automatic refuelling nozzle c/w rotary swivel
- 1m suction hose c/w foot valve/strainer
- Enclosed housing with nozzle holster

### Technical Specification

Medium	Diesel, other fuels and light oils
Flow Rate of Pump	20 l/min- 60 l/min
Flow Meter Range	20 l/min- 120 l/min
Power Supply	220V/50Hz, 0.375 / 2.5A
Operating Pressure	3 bar
Motor Speed	2800 rpm
Condenser	450V-12.5 $\mu$ F
Precision	+/-1% of flow range after calibration
Display	Mechanical register with 1x (4 Digit) resettable Total and 1x (8 Digit) Non resettable Total- Manual Reset Knob
